

ANTI-BACTERIAL SHAMPOO – with Coal Tar

150 ml

Recommended for the control of Eczema, Psoriasis and Dandruff.

Sulphate Free ! - Ph Balanced

Application: Washing of scalp and hair

What is Coal Tar?

A black, viscid liquid formed during the distillation of coal. It has antiseptic and anti-inflammatory properties.

How does Coal Tar work?

It is used on the skin to treat the itching, scaling, and flaking due to skin conditions such as psoriasis or seborrheic dermatitis. It works by causing the skin to shed dead cells from its top layer and slow down the growth of skin cells.

Is Coal Tar safe?

Coal Tar is monographed **by the FDA as Category 1 (safe and effective)** Over the Counter ingredient for use in the treatment of dandruff, seborrhoea, and psoriasis.

Vicious circle of scalp psoriasis and hair loss
