

LAUNDRY CONCENTRATE

500 ml (50ml per 7kg load)

General washing of clothing, linen and washable footwear does not eliminate bacteria in the fabric.

This can result in contamination of the skin or re-contamination of a skin related condition.

The Laundry Concentrate is a very effective, natural product that has been independently tested by an independent MCC (Medicines Control Council) accredited testing laboratory to eliminate various fungi, mould and bacteria including the following “Superbugs” : *MRSA*, *E-Coli*, *Pseudomonas Aeruginosa* and *Staphylococcus Aureus*.

Applications: Washing of linen, clothing, socks, underwear, active wear, washable footwear.

Application Options:

- Use as a replacement for conventional washing detergent
- Use as a pre-wash soak.
- Use as pre-wash then follow with a conventional wash

Any of the above are suitable options for elimination of bacteria, fungi and mould.

The main requirement is to use the product in at least one cycle on its own. Do not use with any other detergent or softener in the same cycle.
